PROPERTY & PACKAGE

Give us the building. The tenants. The full picture.

Commercial property and package review built around the actual occupancy.

Bring commercial lessor's risk, offices, retail, warehouses, vacant properties and qualifying habitational accounts to Volition. Location, occupancy, construction and values help determine the available route.

Occupied commercial property

Identify the owner's operations, every tenant and any mixed uses.

Vacant or changing occupancy

Explain the vacancy period, security, condition and intended use.

One location or a schedule

Break out building, contents, business income and other requested values for each location.

> Volition's Exclusive CPP is coming soon, with no announced launch date. Existing property and package review remains a separate submission path.

PREPARE FOR REVIEW

- Addresses, occupancy, construction and building updates
- Values/SOV, protection and requested coverage
- Current loss information and effective date
